MLP 74 TWIN

FULLY AUTOMATIC ATTACHING MACHINE

with 3 hoppers

for Alfa and Kappa studs and posts

Technical Data

Drive	electric
Connection load max.	1,1 kVA
Voltage	1x 230 V
Frequency	50/60 Hz
Plunger force	9000 N
Noise level	< 74 dB(A) DIN 45635
Speed (constant)	1800-2200 pc/h
Throat depth	80 mm
Throat height	20 mm
Operating height	900 mm (1000 / 1100 mm on demand)
Dimensions WxDxH	600x500x1420 mm
Weight	150 kg

Range of application

- Alfa and Kappa studs and posts (standard + Twin version)

Advantages

- High solidity, resistance and precision
- Easy programmable attaching sequences

Optional features

- Laser spot light
- Adjustable indexing table
- Specific solutions on customer demand
